

# **Andorra Power Station Power Generation BESS Company**

#### **Overview**

A battery energy storage system (BESS), battery storage power station, battery energy grid storage (BEGS) or battery grid storage is a type of technology that uses a group of in the grid to store. Battery storage is the fastest responding on , and it is used to stabilise those grids, as battery storage can transition fr.

What is a Bess installation?

The BESS installation is a joint venture between Ardian's ACEEF and Lappeenrannan Energia, a Finnish municipal energy company. The Mertaniemi project is expected to come online in the spring of 2025 and is located near the Mertaniemi power plant in Lappeenranta.

Does Ardian have a Bess project in Finland?

Ardian's announcement of its BESS project in Finland comes on the heels of the group's purchase of two Finnish wind farms last year with more than 27 MW of combined generation capacity. The BESS installation is a joint venture between Ardian's ACEEF and Lappeenrannan Energia, a Finnish municipal energy company.

What technologies are included in a Bess system?

BESS typically includes the following technologies: Inverters: convert direct current (DC) to alternating current (AC). Integrated Sensors: track the performance and status of the BESS, gathering essential data to enhance its efficiency.
