

# Bahrain Commercial Photovoltaic Folding Container Wholesale

#### **Overview**

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.

How to install a solarfold rail system?

With the patent-pending and unique ground anchors, the rail system can be installed easily and without great effort. With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. Just sink the anchor and spread it with the cordless screwdriver.
