

## **Battery BMS Project**

## **Overview**

This project demonstrates a novel battery management system which actively monitors the critical parameters like voltage, capacity and performs as an active balancing of cells in a battery pack whenever re.

## **Battery BMS Project**

The Open BMS Project - Li-lon Battery

Management Systems for everyone

The Open BMS Project is an open source and open hardware project with the goal of developing a reliable, rugged, high quality BMS (Battery Management System) for lithium-ion batteries, ...

<u>kayoumdjedidi/OpenBMS-advanced-battery-management-system</u>

The system constantly monitors battery parameters and instantly cuts off the input or output from the battery as soon as any unusual behavior is detected. The system also includes warning ...
