

# Chile s new photovoltaic solar panels

### **Overview**

In 2013 the Atacama 1 solar complex was proposed as a 110 MW electric plant (the first in Latin America) and a 100 MW photovoltaic plant. The solar thermal plant will include 17.5 hours of . These technologies complement each other to supply clean and stable energy 24 hours a day. The complex is located in the commune of María Elena, Segund.

## Chile s new photovoltaic solar panels

# Renewable energy projects that are changing the face of

Chile's first hybrid industrial power plant. In 2020, Enel Green Power started the construction of the Azabache photovoltaic solar park in the Antofagasta Region. This park will operate ...

In 2013 the Atacama 1 solar complex was proposed as a 110 MW solar thermal electric plant (the first in Latin America) and a 100 MW photovoltaic plant. The solar thermal plant will include 17.5 hours of thermal storage. These technologies complement each other to supply clean and stable energy 24 hours a day. The complex is located in the commune of María Elena, Segund...

# <u>Guanchoi</u>, <u>Chile's largest solar plant</u>, <u>begins</u> <u>commercial operation</u>

Guanchoi's construction included the installation of 893,508 solar panels with state-of-the-art bifacial monocrystalline photovoltaic technology, allowing for greater efficiency in ...
