

French photovoltaic panel manufacturers

Overview

Are our solar panels made in France?

Not all our panels are produced in France (yet). We select the world's best factories based on strict environmental and social criteria. Our panels are certified low-carbon. It's the least we can do. Our panels are built to last: the PV performance is guaranteed 30 years. Our technical teams are available to support you for free, for life.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.

Who makes Photowatt solar panels?

Founded in 1979, Photowatt has established itself as a manufacturer of high-efficiency photovoltaic products. The company specializes in producing solar panels, including bifacial and monofacial types, and emphasizes low-carbon production methods.

Is SunPower a French company?

SunPower Corporation Although SunPower Corporation is an American company by origin, it has a substantial presence in the French solar market. They have established a factory in De Vernejoul, France, thus solidifying their commitment to supporting the country's renewable energy goals.
