

# How many energy storage projects are there in Bahrain

### **Overview**

Bahrain announced proposals to build a 100-Megawatt high-tech solar power station in agreement with the private sector in September 2017. This is just the latest in a series of solar-related advancements in recent years, as the country seeks to diversify its energy sources.

In July 2014, Bahrain started its first renewable energy project. Bahrain Petroleum Company named Bapco built the 5 megawatts PV solar project in partnership with.

This closely constrained project includes the installation of a 3 Megawatt photovoltaic power plant for the Tatweer Petroleum Corporation at the Awali site. The 3.

The National Plan for Renewable Energy was approved in January 2017 and sets a national renewable energy target of 5% by 2025, growing to 10% by 2035 in the.
