

How much do photovoltaic panels cost in Kosovo

Overview

How much does solar power cost in Prishtina?

Almost a year since the initial public call, the Ministry of Economy in Prishtina completed its pilot solar power auction. Even though it raised the ceiling price in late December to EUR 75 per MWh from EUR 65 per MWh amid repeated delays, it was closed at EUR 48.88 per MWh.

How will a solar power plant affect Kosovo's energy mix?

This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to 110.1 MW. As a result, the share of solar power in the energy mix of Kosovo will increase from 0.2% to 2.3%. The plant is expected to produce around 152 GWh of electricity and save 152,000 tonnes of CO₂ annually.

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

Is the electricity sector in Kosovo based on coal-fired power plants?

The electricity sector in Kosovo* is almost entirely dependent on coal-fired power plants (97%). This investment project will install a solar photovoltaic plant of up to 100 MW capacity on former ash dump fields near Kosovo A thermal power plant.

How much does a MWh cost in Albania?

The maximum acceptable price in Albania's upcoming auction is EUR 59.97 per MWh. The two previous auctions, in 2021 and 2020, were similar to the latest one in Kosovo*. The government secured land for one large-scale

project at a time and for one investor each.
