

# **Huawei Thailand Power Market Energy Storage**

## Overview

---

Why should you choose Huawei for smart PV solutions in Thailand?

Huawei in turn, offers leading Smart PV solutions harnessing more than 30 years of expertise in digital information technology. This continued partnership will bring industry leading solar inverter, energy storage technology and services to customers in Thailand.

What is Huawei's smart string energy storage solution (ESS)?

The latest innovation of Huawei's smart string Energy Storage Solution (ESS) further solidifies its strong position in the solar industry. On top of solar inverters, the energy storage products are now available with BayWa r.e. for distribution to bring technological benefits to our customers.

Does Huawei sell solar products in Thailand?

Since 2019, BayWa r.e. – a leading solar product distributor – has been Huawei's partner in sales, distribution, and a Certified Service Partner. During 2020, the company saw estimated growth of 30% in the Thai market compared to 2019.

Is Huawei green home scalable?

Notably, the system is scalable up to 83 kWh, accommodating varying energy needs and being adjustable for upgrade and scaling. With Huawei BESS solution, house owners are able to store excess solar energy during daytime and utilize the energy when needed. Therefore, Huawei GREEN HOME solution enable solar energy from day to night.

How much power does a smart power unit produce in Thailand?

"This is a significant leap forward for Thailand's growing of smart technology infrastructure and future trend smart charging and clean energy," Mr. Yu said. The power unit boasts a maximum power output of up to 720 kilowatts, quieter overall operation, and a unit lifespan of up to 10 years.

Will Thailand become a greener energy hub?

As Thailand moves towards becoming the regional Electric vehicles (EVs) hub, the transition to a greener energy structure is bringing ongoing investment opportunities and environment impact. To accelerate this process, technological innovation and proactive deployment is essential.
