

Kazakhstan Huijue Communication 5G fastinstalled base station project

Overview

Will Kazakh Mobile operators expand 5G coverage in 2025?

ASTANA - Kazakh mobile operators will expand 5G coverage in Astana, Almaty, Shymkent, and regional centers to complete the introduction of 5G mobile communications by the end of 2025, Minister of Digital Development, Innovations and Aerospace Industry Zhaslan Madiyev said at a June 18 government meeting chaired by Prime Minister Olzhas Bektenov.

How many base stations are there in Kazakhstan?

As stated by the Prime Minister's press service, 1,144 base stations have been installed in 20 cities. By the end of 2027, mobile network carriers will invest over 450 billion tenge (US\$994.3 million) in the telecommunications industry. Madiyev reported that internet usage in Kazakhstan is on par with that of developed countries.

How many villages in Kazakhstan have fiber optics?

There are 6,290 villages in Kazakhstan with fiber optics connected to 2,606 of them via wired internet. The national project aims to connect optical communication lines to 3,010 villages through a public-private partnership mechanism.

How much money will Kazakhstan invest in the telecommunications industry?

By the end of 2027, mobile network carriers will invest over 450 billion tenge (US\$994.3 million) in the telecommunications industry. Madiyev reported that internet usage in Kazakhstan is on par with that of developed countries. Internet traffic growth increased by 61.5% compared to 2020, and the number of users rose by 12.9%.

How will Kazakh Telecom advance the Digital Silk Road?

A joint venture has been created between Kazakhtelecom and Azertelecom, and a tender to select a contractor for the design and installation of the

underwater fiber-optic line is nearing completion. Another measure to advance the Digital Silk Road is the construction of a national west-east hyperhighway to increase transit traffic across Kazakhstan.

How fast is the Internet in Kazakhstan?

Internet traffic growth increased by 61.5% compared to 2020, and the number of users rose by 12.9%. According to Ookla's Speedtest data for April 2024, Kazakhstan ranks 66th globally in average internet speed, with 43.6 megabits per second, surpassing Russia, the Kyrgyz Republic, and Uzbekistan. Measures to improve quality
