

## Kosovo Off-Grid Energy Storage System Quote

## **Overview**

How will a 340 MWh battery storage facility impact Kosovo?

Installing a 340 MWh battery storage facility in Kosovo will positively impact the country's energy sector by reducing the country's dependence on imported electricity, including increased energy security, integration of renewable energy, improved grid stability, reduced energy costs, and environmental benefits.

Will Kosovo build a battery energy storage system?

The government of Kosovo will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the energy crisis.

Will Kosovo become a leader in the energy sector?

By implementing the largest BESS installation in the region, Kosovo will become a leader in the field, surpassing other countries in the area and beyond. The project, co-funded by the Government of Kosovo and MCC, aims to build a 340 MWh BESS installation by 2027. The project is expected to bring significant benefits to the energy sector in Kosovo.

What is the energy strategy of the Republic of Kosovo?

The Energy Strategy of the Republic of Kosovo, 2022-2031, clearly targeted its vision by 2031 to improve decarbonization by reducing Green House Gas emissions by at least 32% and reaching a total Renewable Energy Sources capacity of 1,600 MW, primarily solar and wind.

How much money will Kott invest in a battery energy storage system?

The agreement involves an investment of approximately 236 million Dollars, with a major component being the installation of a Battery Energy Storage System (BESS) with a capacity of 340 MWh. As part of the BESS, KOSTT will own a portion of 90 MWh to provide its own ancillary services, specifically secondary reserves.

What role will Bess play in achieving Kosovo's Energy ambitions?

As Kosovo transitions towards a more sustainable energy future, BESS will undoubtedly play a vital role in achieving its energy ambitions.
