

Micro New Energy Battery Cabinet Requirements

Overview

What is a battery energy storage system?

Battery energy storage systems (BESS) stabilize the electrical grid, ensuring a steady flow of power to homes and businesses regardless of fluctuations from varied energy sources or other disruptions. However, fires at some BESS installations have caused concern in communities considering BESS as a method to support their grids.

How many nickel manganese cobalt lithium-ion batteries were stored at Gateway?

The facility held about 15,000 nickel manganese cobalt lithium-ion batteries. Following the incident, EPA has required the Gateway facility to conduct extensive environmental monitoring during battery handling and disposal operations and submit detailed work plans and progress reports.

Do I need A CoA to install battery ESS in NYC?

Manufacturer (or Representative) needs to obtain a Certificate of Approval (aka COA or TM-2) for Battery ESS to be utilized in NYC. COA is City-Wide. Once approved, allowed for installation throughout NYC Conditions of approval will be stated in COA. These could modify prescriptive requirements of code/rule such as:
