

# **Norway Communications Energy Storage Battery**

## Overview

---

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. “There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It’s the key to turning intermittent wind and solar into a stable energy source,” explains Pål Runde, Head of Battery Norway.

What is Norway's battery strategy?

from fossil to renewable energy in Norway and abroad. The battery strategy forms part of the Government’s Green Industrial Initiative, and the value chain or batteries is one of seven pillars in this initiative. The others are the value chains for offshore wind, hydrogen, carbon capture and storage (CCS).

How big is Norway's battery market?

batteries for stationary energy storage - a market expected to reach EUR 57 billion by 2030. Now, a more mature Norwegian battery industry has greater potential to accelerate the renewable energy transition in Europe. Today Norway has not one, but two huge battery markets.

Is Norway a battery region?

As a battery region, the Nordics have become a notable actor in the broader European battery market. They have also joined forces on global projects, such as the export of energy storage systems to Egypt and Lebanon. “The rest of the world understands that Norway is an important player in all things battery.

What is the energy need for battery production in Norway?

ing and aligning the project with relevant stakeholders. Local resi Norwegian Environment Agency, 21 March 2022 Energy needs The energy needed for battery production in Norway is uncertain despite the fact that production

capacity is normally measured b.

Why is the battery value chain important in Norway?

arket share in several parts of the battery value chain. The battery value chain has the potential to become a major new, profitable industry in Norway, giving us a chance to contribute to emission reduction, create green jobs and aid the transit

## Norway Communications Energy Storage Battery
