

Outdoor solar integrated chassis system

Overview

Can solarscapes be integrated into a new structure?

SolarScapes can be easily integrated into any new or existing structure. Infinitely configurable to meet the needs of any project.

What is the best solar carport mounting system?

Power Stone's solar carport mounting system is one of the best solar carport kits that cater to both residential and business demands. Because of its preassembled components and design that prioritizes ease of use and durability, the system ensures quick installation.

What are solar parts components kits?

Solar parts components kits transform parking areas into energy-producing zones using long-lasting solar panels, ensuring cost-effectiveness and compatibility with both on-grid and off-grid systems. The kit combines solar power with vehicle shading, ideal for space-constrained sites.

What is a SolarScape?

A SolarScape is a modular, pre-engineered, prefabricated solar structure made from machined, welded and powder coated aluminum or steel for maximum durability and ease of installation.

What makes SolarScapes unique?

SolarScapes are unique because they integrate award-winning frameless Vision Module Systems and meet the highest snow, wind, hail ratings. This results in unbeatable aesthetics, functionality, and durability. SolarScapes are built with state-of-the-art U.S. manufacturing.

Are SolarScapes powder coated?

SolarScapes are powder coated with a minimum thickness of 5mil and

maximum of 10mil. They are primed and tested per ASTM D3451 guidelines. SolarScape prefabricated modular solar structures can be easily integrated into virtually any project - canopies, awnings, walkways, carports and more.
