

## Photovoltaic panels directly embedded in the roof

## **Overview**

In-Roof Solar Panels: These are integrated directly into the roof, replacing traditional roofing material for a streamlined look. In-roof solar panels blend seamlessly into the roofline, enhancing the home's aesthetics.

## Photovoltaic panels directly embedded in the roof

<u>In-roof solar panels: What you need to know about integrated PV panels</u>

Also known as integrated solar panels, in-roof panels sit flush with your roof tiles rather than being mounted on a frame on top. This gives them a streamlined appearance that ...
