

Polish power frequency inverter manufacturer

Overview

How many employees does inverter have?

It is a company employing almost 500 employees with a high level of process automation. It is a brand present in 120 countries and the No. 1 brand in the Czech Republic in terms of market coverage and recognition, as well as one of the most frequently chosen inverter brands in Italy and Australia.

What does a power inverter do?

Inverters realize the function of an alternating voltage energy source, and in complex power supply systems they also perform filtering and stabilizing functions, guaranteeing high quality of power supply through double energy conversion. [Read more >](#) Higher power inverters are usually connected in parallel.

What is a power supply inverter?

The inverter, as the converter of direct voltage (DC) into single-phase or three-phase alternating voltage (AC), is the basic element of guaranteed power supply systems.
