

## Romania PV Energy Storage Subsidy

## **Overview**

Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of €150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Does Romania offer a subsidy for battery energy storage systems?

From ESS News Romania has launched a new subsidy scheme for behind-themeter battery energy storage systems to the tune of €150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025.

How much will Romania pay for a battery energy storage system?

Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR 150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025.

Does Romania have a grant program for battery energy storage systems?

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities – wind, solar, or hydro. From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of €150 million (\$158 million).

Will Romania support the construction of electricity storage facilities?

Following the positive assessment of the Romanian Recovery and Resilience Plan, the Commission has approved a €103 million Romanian scheme to support the construction of electricity storage facilities.

Will Romania reopen a call to support battery storage projects?

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of resources. The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports.

Will pnrr help Romania meet its energy needs?

Earlier in November, the Ministry of Energy allocated EUR 30 million in non-reimbursable support via PNRR for 791.48 MWh of battery energy storage. Once delivered, the five projects will see Romania meet 20% of its storage needs, according to the ministry's announcement.

## **Romania PV Energy Storage Subsidy**

<u>Subsidies for battery and PV panel production</u> <u>and electricity storage</u>

In 2022, Romanian Ministry of Energy launched a state aid scheme supporting of investments in building manufacturing capacity for production, assembly and recycling of batteries, ...

Romania's Electrica bags funds for 69.9-MWh battery project , Energy

Electrica, which last month completed the acquisition of a ready-to-build solar project in Romania with an authorised installed capacity of 77.5 MW, was last year awarded ...

## Romania allocates EUR150 million for standalone battery storage rollout

Romania has launched a new non-refundable funding program for battery energy storage systems to the tune of EUR150 million (\$158 million), this time dedicated to standalone ...

Subsidies for battery and PV panel production and electricity ...

In 2022, Romanian Ministry of Energy launched a state aid scheme supporting of investments in building manufacturing capacity for production,

assembly and recycling of batteries, ...

Romania allocates EUR120 million in state aid to boost battery energy

The Romanian Ministry of Energy has announced a total of EUR120 million in state aid for six companies to support the production, assembly and recycling of battery energy ...

Scheduled to be launched on March 1, two public calls in Romania will enable companies to get a total of EUR 815 million in grants for renewable electricity projects. Minister ...

Romania opens EUR150 million pot for co-located battery storage - pv

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities - wind, ...
