

## **Solar photovoltaic panels installed in sunroom**

## Overview

---

What makes a sunroom a great addition?

Sunrooms are the perfect four-season addition to increase the view and create a focal point for any home or business. Solar Innovations ® 's custom designed structures include durable aluminum framework. They are tailored with the most comprehensive line of aluminum accessories in the industry.

Can solar innovations ® design aluminum structures?

Solar Innovations ® can design aluminum structures with various options for solid wood or wood laminate interiors. Glazed structures combine the strength and quality Solar Innovations ® is known for with the warmth that makes a house a home.

Where can solar glazed buildings be used?

Solar's glazed structures can be directly on the ground or atop high rise buildings. Restaurants, hospitals, and retirement homes can all benefit from the additional natural light provided by the implementation of a glazed room.

What glazing options does solar innovations offer?

Solar Innovations has top of the line glazing solutions which include laminated, dual glazed, triple glazed, & marine glazed options just to name a few. Solar Innovations ® manufactures the highest quality glazed structures custom designed and engineered to match individual customer's needs with a large variety of styles to choose from.

Are solar glazed structures a good choice?

Solar's glazed structures are constructed from durable aluminum framework and the HVHZ certifications speak to the strength engineered into every structure solar produces. Though preferential in many commercial applications, an all-aluminum structure is not always ideal for a residence.

Why should you choose solar innovations ® for Your Greenhouse & Conservatory?

Unlike most greenhouse & conservatory manufacturers, Solar Innovations ® provides all the necessary fasteners, silicone, and flashings for your project. These services help customers reduce installation time and cost, providing a high quality final product.
