

Swiss energy storage power generation company BESS

Overview

Will intilion build a Bess in Switzerland?

German energy storage provider Intilion has agreed to build a stand-alone BESS of around 65 MWh for Swiss company Primeo Energie. Construction is expected to begin in spring 2025. When it is completed, it will be one of the largest BESS in Switzerland.

When will Bess be built in Switzerland?

Construction is expected to begin in spring 2025. When it is completed, it will be one of the largest BESS in Switzerland. According to Jan Baumann, Project Manager Energy & Grid Management at Primeo Energie, the system "will be used to compensate for weather-related fluctuations in the area's rapidly growing renewable electricity production.

Does Switzerland have a Bess system?

The BESS is part of a network of power plants, consumers and batteries, it added. The large-scale BESS market in Switzerland has been relatively quiet with renewable penetration on the country's grid still relatively low. Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year.

How much power does a Bess have?

These involve BESSs with a total rated power of 700 MW and a storage capacity of 700 MWh. The regulator explicitly permitted these installations in the German Grid Development Plan. We energize the world. On land, at sea, in the air and in space.

Is Bess being monetised in the Swiss electricity market?

It is being monetised in the Swiss electricity market by both CKW, part of Axpo, and utility Alpiq, the announcement said. The BESS is part of a network of power plants, consumers and batteries, it added. The large-scale BESS

market in Switzerland has been relatively quiet with renewable penetration on the country's grid still relatively low.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.
