

Swiss power plant energy storage project

Overview

For the first time, a pilot project called Alacaes is developing a new system that stores electricity in the form of compressed air in the Swiss Alps, with the support of the Swiss Energy Ministry.

Swiss power plant energy storage project

900 MW Nant de Drance Pumped Storage Power Plant, Switzerland

With costs of just over 2 billion Swiss francs, the project will be an important component of the Swiss and European energy strategy. Thanks to the installed capacity of 900 MW, the power ...

<u>Large-scale battery for Switzerland: 65 megawatt</u> <u>hours of capacity</u>

Primeo Energie will use our storage system to provide energy flexibility. The battery stores surplus electricity from renewable sources and feeds it back into the grid as needed. In this way,
