

Ukrainian communication base station wind and solar complementary project bidding

Overview

What does a green energy Marshall Plan mean for Ukraine?

Outlook: A Green Energy Marshall Plan for Ukraine Ukraine's journey towards a sustainable energy future is marked by both significant challenges and substantial opportunities.

Can Ukraine protect its energy infrastructure from Russian attacks?

Ukraine's civilian energy infrastructure has been the target of relentless Russian attacks over the past three years, with half of the country's energy infrastructure destroyed. Only a fully independent energy system can shield Ukraine from current attacks and future pressure.

What is the energy security and integration package for Ukraine?

An energy security and integration package for Ukraine The package offered in Kyiv today consists of: The package will facilitate electricity market integration with the EU by spring 2027, together with Moldova, as well as further integration in the EU gas sector.

Should Ukraine build a decentralized and diversified energy system?

The Ukrainian government (2023) recently declared that building a decentralized and diversified energy system—one that is more resilient against military attacks or natural disasters and can enhance energy security while facilitating the transition to renewable energy sources (RES)—will be a key priority.

How does Germany and Ukraine work together?

Germany and Ukraine work jointly on enhancing energy efficiency, promoting modernisation of energy infrastructure and expanding the use of renewable energy. The Energy Partnership addresses vital issues like the reduction of greenhouse gas emissions and the energy sector transformation.

How will a new energy package benefit Ukraine?

This will result in ample gas reserves to ensure security of supply, benefiting both Ukraine and the wider region. The package will accelerate investments in renewable energy, adding up with up to 1.5 GW of generation capacity. This represents approximately a 25% increase of total renewable energy generation capacity in Ukraine.
